Monumental Inscriptions at Congregational Church. PONTESBURY. Shropshire 1844-1990

INTRODUCTION

The Congregational Church, Pontesbury, Shropshire was opened on Christmas day 1839.

This transcript of the monumental inscriptions has been compiled from several sources which are listed below.

Researchers should note that the various sources do not agree in several respects, and that where a discrepancy is found other records should be checked to determine the correctness of the information contained in this transcript.

Items a) and b) below have been provided by the Minister, Rev. Richard Cleaves MA PhD, to whom we are very grateful for his help and co-operation in the making of this transcript.

Component Parts:

- a A typescript of the gravestone readings made during the early 1980s by members of the Church. The details from this list were the first to be entered into the present transcript and provided the numbers from (1) to (100) which will be found down the left hand margin.
- b A plan of the larger part of the Churchyard (the area to the right of the path leading to the Church) together with a chart listing the burials (most entries are very brief). This appears to have been kept up to date until the late 1940s. This only covers the larger part of the Churchyard, but uses the same numbering sequence as a) above.
- c Around 1981/2 fourteen stones in the smaller part of the Churchyard (those to the left of the path leading to the Church) were recorded by Roger Jones before the Churchyard was cleared, and are shown in the present transcript by the heading 'JONES Transcript'.
- d In 1990 all the stones then surviving in the Churchyard were recorded by Denis George. At this date there were only forty nine stones in the Churchyard (a number were removed in the early 1980s) and a further eight inside the Church which have not been recorded previously. This recording is shown after the heading '1990 Transcript'. Where there is a difference in the details shown from the various sources, this is likely to be the most reliable because the recorder has had the advantage of being able to check the actual gravestones.
- e A photocopy of one page from the burial register covering the years 1883 to 1888 is attached for information. The original registers are still with the Church in January 1991.

Graves numbered 1 to 23 are situated on the narrow left side of the churchyard and graves 24 to 100 are on the larger right side of the churchyard.

1 No record.

2 William son of John and Anne DAVIES died 27 Apr 1861 aged 3 years.

JONES Transcript William son of John and Ann DAVIES died 27 Apr 1861 aged 3 years.
