

How to PRINT a SINGLE PAGE from the magazine on the WEBSITE.

1. With the magazine on the screen in front of you, first identify the **NUMBER of the page** you want to print. (For the Crossword in the May edition this is page 36, for the Wordsearch it's page 37).

2. With the **cursor arrow** on the middle of the magazine page on the screen, **right-click** and a white box of text will appear.

3. In that box **left-click** on the word print.

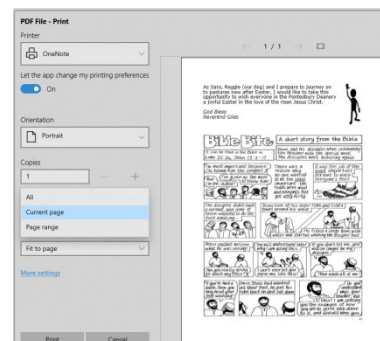

4. A page like this headed Print will appear.

5. Go to **the line which says Pages** and **click on the little down arrow** on the right, next to the word All.

6. Then **choose Custom**, or **Page range** and enter the **number of the page** you have identified to print.

(Beware - if you don't do this then the whole 40+ pages of the magazine will be printed, and that's not what you want!)

7. Click on **Fit to Page** which will enlarge the A5 page to fill an A4 sheet.

8. Then **click on Print** at the bottom of that page, and provided you are connected to a printer, the page you have chosen will be printed!
